Logic Recruitment
5/19 Outram Street
West Perth 6005

Att: Kilee Giles

Dear Kilee,

Logic Recruitment have been providing recruitment services to EMCO Building for little over two years now and since then have provided exceptional customer service to our company.

Their area of expertise is cutting out the candidate clutter. Logic Recruitment have provided the business with a number of high quality candidates and ensured that we were comprehensively informed of the candidate search process, and presented with a professional package summarising their interactions with the candidate for consideration.

Being responsible of recruitment for our company, I find it just as important that potential candidates have the relevant skills and experience as it is to fit the culture of our organisation. Logic Recruitment understand and delivers on that basis.

I would recommend Logic Recruitment to anyone in the building construction industry. With an experienced and honest team they won't only find you an employee, they will find you the right employee.

Kind regards,

MARK GOMEZ
Construction Manager
